

[This is a copy of the notes I took when I went to the Register of Deeds office. Since your information shows that the family left here in August 1876, could he have borrowed the money that fall, after returning to Iowa, to make the final payment of the land here and to be able to get his family through the year until the crops were harvested on whatever farm he went to there in Iowa for the following season?]

Register of Deeds Office
Entries for SW ¼ 22-11-15
